

A collection of handmade holiday greeting cards is shown. One card in the foreground features a light green ribbon tied in a bow over a red and white checkered pattern. Other cards in the background have various designs, including a yellow and orange floral pattern and a blue floral pattern. The cards are resting on a light-colored surface.

*Did you know* years ago members of the Plastic Club would mail handmade holiday greeting cards to the Club where they would hang on display?

*All are invited* (members and non) to revive this tradition by mailing or hand-delivering a handmade, signed holiday card to be shown in the Bob Jackson Gallery for all to enjoy.

Cards received by *Saturday, November 25<sup>th</sup>* will be installed through December. After the holiday season, they'll join the existing trove at the Pennsylvania Historical Society for future generations to discover.

One card is sufficient, but you may also choose to provide multiple copies for sale to benefit the Club. We'll provide envelopes measuring *4.75 x 6.5 inches*.
